

SIZE GUIDE

FOR ENGAGEMENT & WEDDING RINGS

STEP 1: ADJUST THE SIZE OF YOUR GUIDE

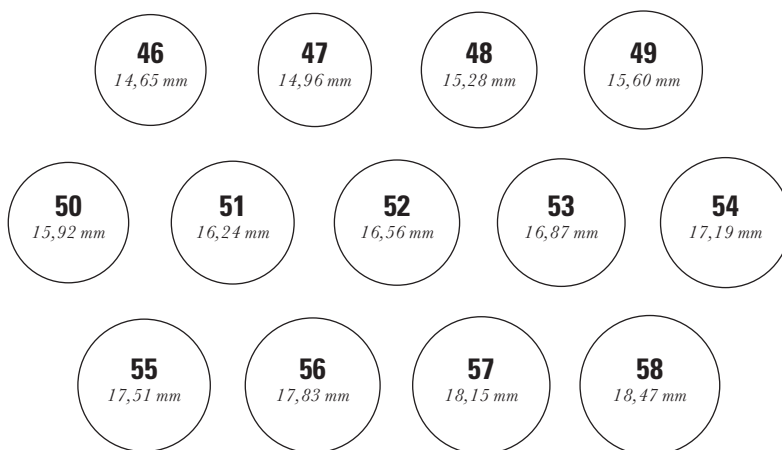

Before measuring to find your perfect ring size, ensure that the scale of the guide is correct. You can do this in two ways :

- Print this guide in A4 format and at 100% scale. Position your credit card on the scale below.
If it fits perfectly within the scale, your guide is adjusted correctly.
- If you do not have a printer, you can also adjust the size of the guide directly from your computer.
Position your credit card on the scale below and adjust the size to fit your card by zooming in or out.

STEP 2: MEASURE YOUR FINGER USING ONE OF YOUR RINGS AS A REFERENCE

Choose a ring that you wear on the same hand and finger as the desired ring. Place it on the outer edge of the circles below. If the ring fits perfectly around the circle, you have found the correct ring size. You can note the number in the center of the circle and indicate it on the product sheet.
