

SÉZANE BELTS

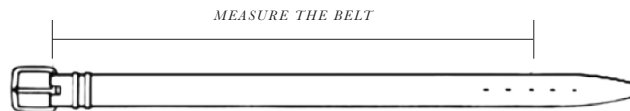

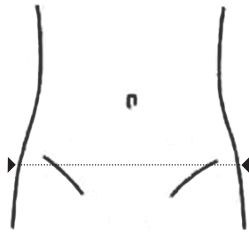

PARIS

# SIZE GUIDE

## FOR HIP BELTS (S75/85/95/105) :

Measure around your hips, where the waistband of your trousers sits.  
This measurement will be your guide in choosing the size of your belt.  
An S95 belt will be 95 cm long, from the base of the buckle pin to the middle hole.  
Then choose the size that is closest to your measurement.  
- *And if you are between two sizes, choose the larger one.*

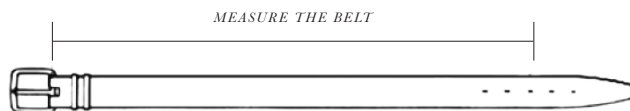

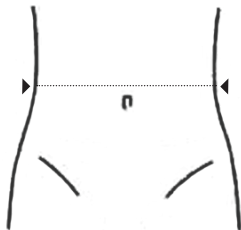

MEASURE AROUND YOUR HIPS

## FOR WAIST BELTS (S80/90/100):

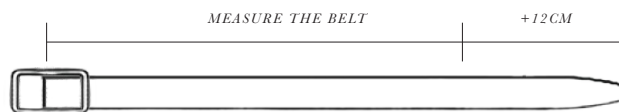

Measure around your waist at the narrowest part.  
This measurement will be your guide in choosing the size of your belt.  
An S90 belt will be 90 cm long, from the base of the buckle pin to the middle hole. Then choose the size that is closest to your measurement.  
- *And if you are between two sizes, choose the larger one.*

MEASURE AROUND YOUR WAIST

## FOR BELTS WITH SLIDING BUCKLES (ARTEMIS, GAIA, ETC.):

From the base of the buckle, measure the length of the belt (for example 80 cm) and add 12 cm to the end of the belt (part that will protrude from the buckle).
